

Turnaround Services

ON POINT™ provides complete integration of services for large shutdowns.

Evergreen recommends ON POINT™ Turnaround Services to integrate the details of large, complex shutdowns that must be completed on time and on budget. Our proven success record includes a refinery-wide shutdown in the Houston Ship Channel in 2006 and a complete gas plant outage in North Texas in 2007.

ON POINT™ yields measurable results and eliminates the guesswork. Six Sigma methodologies reduce variation and increase efficiencies. Your KPI's are measured and analyzed for process improvement.

ON POINT™

Turnaround Services include:

- Evergreen's turnkey cleaning systems
- Advanced planning and scheduling systems
- Executing QA/QC procedures
- Project-specific performance pricing and guarantees
- Development and integration of task-specific safety parameters
